

## IMMUNIZATIONS

In accordance with the Oregon State Health Division, Administrative Rule 333-19-080, documentation of two doses of measles vaccine (rubeola) is required of all entering students who are attending Corban University half-time or more.

### REQUIRED

1. **Two Rubeola** (Red Measles) immunizations after 12 months of age if you were born on or after January 1, 1957. Students can be considered immune to measles only if:
  - They were born before 1957 (these people are assumed to have had measles)
  - They have physician documentation of immunization with two doses of measles vaccine at least 30 days apart, on or after their 1st birthday.
  - Physician diagnosed measles or
  - Blood test showing evidence of immunity.
2. **Rubella** (German Measles) after one year of age.
3. **Mumps** after one year of age.  
Most often MMR (Measles, Mumps and Rubella) was given as a combination immunization at 15 months of age or later.

The Registrar's office will be notified of students who are not in compliance with the Oregon State Health Division requirements. Registration to attend classes will not be allowed for students who fail to complete their health requirements. Students can discuss any questions regarding the immunization requirements with personnel at Corban University.

YOU MUST FILL OUT THE HEALTH HISTORY FORM TO MEET THIS REQUIREMENT.

### IMMUNIZATION EXEMPTION

You may be considered exempt of the immunization requirement if one or more of the following apply:

- You were born before January 1, 1957
- You adhere to a religion that is opposed to immunizations
- There is a medical reason that prohibits you from being immunized

If you are seeking to be exempted from the immunization requirement, please fill out the related section found on the IMMUNIZATION form. Please check which exemption you are seeking and provide the proper signature.

### RECOMMENDED IMMUNIZATIONS (8)

- |   |  |
|---|--|
| 1. Diphtheria/Tetanus (booster dose within last 10 years) | 5. Meningococcal - Menactra (1 dose)       |
| 2. Varicella (chicken pox)                                | 6. Rubella (German/3 day Measles) (1 dose) |
| 3. Mumps (1 dose)   | 7. Hepatitis A Series (2 doses)            |
| 4. Polio  | 8. Hepatitis B Series (3 doses)            |

### TUBERCULOSIS (TB) SCREENING / FOR ALL STUDENTS BORN IN HIGH INCIDENT COUNTRIES

Students from low-incidence countries, as designated by the Oregon State Health Division, are not required to have TB screening. Low-incidence countries per Oregon State Health Division:

Australia • Austria • Belgium • Canada • Denmark • Finland • France • Germany • Great Britain • Greece • Ireland • Italy • Luxembourg • Netherlands • New Zealand • Norway • Portugal • Spain • Sweden • Switzerland

Students born outside the above countries are at higher risk of being infected with Tuberculosis. Tuberculosis skin testing is required for those students born outside the low-incidence countries. Any student who has a history of a previous positive TB test should not be retested; these students need to have a chest x-ray. The student will need to bring a copy of the x-ray report or physician documentation of treatment for TB.

Students should complete the Tuberculosis Screening Documentation Form if they were born in a high incident country and submit with the Health Form to Corban University.
