CORBAN ACCELERATED ONLINE OVERVIEW

Corban Accelerated Online (CAO) is an extension of the Adult Degree Programs (ADP) at Corban University, which is located on 142 beautiful acres in the Willamette Valley overlooking Oregon's capital city. The University is accredited by the Northwest Commission on Colleges and Universities. It is recognized by "U.S. News & World Report" as one of the West's Top Ten Best Regional Colleges.

As a Christian University, we are committed to provide a Christian education for life and service. It is our conviction that learning and the Christian faith are inseparable. We are committed to the Bible as our standard of faith and practice.

The mission of Corban Accelerated Online is to provide ADP students with a means for completing degree requirements outside their major.

CAO is a reading and writing intensive program offered to ensure that the CAO courses provide a comprehensive and timely set of general education and elective course credits allowing students to satisfy degree requirements.

The program is a valuable tool as well for the prospective or "pre-cohort" ADP student who is seeking to acquire the minimum number of credits for entrance into the Adult Degree Program. Students may earn from two to three credits per course. CAO courses are also available to the adult learner from other institutions needing elective or Bible courses or for those who just enjoy the learning process.

CAO courses enable students to satisfy requirements in biblical studies and general education. Currently, CAO offers over 70 online classes which are delivered in a five-week, online format using the Converge course management system.

If you have any questions, please do not hesitate to contact us at 888-370-7590 toll free, locally at 503-375-7590 or online at CAO@corban.edu.

CAO COURSES OFFERED

BIBLICAL STUDIES

| | | |
|-----------|------------------------------|-----------|
| BI112CACA | Old Testament Survey | 2 credits |
| BI122CACA | New Testament Survey | 2 credits |
| BI202OOCA | Bible Study Methods | 2 credits |

| TH433CACA | Biblical & World Views | 3 credits (no FS, OL or or pre-cohort students) |

Note: Some courses are not offered every academic year

CAO REGISTRATION

Early registration is always prudent when it comes to CAO courses. Many classes fill quickly as students are looking for credits to fulfill requirements for their degree in a timely manner. Register at www.corban.edu/cao. Registration for summer and fall opens April 7. Registration for spring 2015 opens November 10.

Tuition for CAO is \$335 per credit hour. Tuition must be paid in full at the time of registration. Corban accepts all major credit cards. You may also choose the option of E-Check when registering online. A \$40 technology fee will be assessed once each semester for students enrolling in CAO courses.

Note: If you are a current ADP student and plan to use financial aid for CAO tuition, please contact your assessment counselor.

Note: If you are a pre-cohort program student, you will be contacted regarding financial aid.

Course descriptions are available on page 12 of this catalog and on the CAO website: www.corban.edu/cao. Simply click on class schedules and run your cursor over the class number or title.

Textbook and lab fees vary with each class and are not included in tuition. You may contact the Corban University Bookstore (503-375-7035) to purchase your textbooks or just go to your favorite online supplier.

Course syllabi and other necessary course materials will be emailed to you following successful registration, approximately two weeks prior to class start date.

Prior to the start date of class, you will be registered in Converge (Corban's online course management system). You will receive information about the course, web mail, and access to grades/transcripts.

CLASS SIZE

Online CAO classes are limited to 15 students. Classes with fewer than five registered students are subject to cancellation. Should this occur you will be contacted in advance and your tuition will be refunded in full or you will be assisted in enrolling in another class.

AUDITS

Audits are not permitted in the CAO program.

WITHDRAWALS

If you need to withdraw from a course you must do so **prior to the Friday of week one**. Contact the Adult Degree Programs office by phone (888-370-7590 or 503-375-7590); or by email (CAO@corban.edu) to officially request a course withdrawal. Students withdrawing **AFTER** the Friday of week one will forfeit a tuition refund and are subject to a failing grade.

REFUNDS

Tuition is refundable when a student requests a withdrawal **prior to the Friday of week one**. In cases where severe illness or a family emergency (occurring after a course has begun) prohibit one from completing a class, please contact the ADP office.

If you have any questions contact us at 503-375-7590 or 888-370-7590 (outside of Oregon) or CAO@corban.edu.

ACADEMIC HONESTY

Corban University is committed to high academic standards and expects students to achieve these standards in a manner marked by integrity and honesty. Academic honesty is the hallmark of true personal integrity. Students' academic work is evaluated on the assumption that the work presented is their own. Faculty and students are expected to identify departures from academic honesty. For specific details regarding principles of academic honest please see the online Corban academic catalog at www.corban.edu

COMPLEMENTARY TRACKS AND CERTIFICATES

Courses in the Mental Health Track and Children and Families Track are designed to complement the Psychology: Family Studies program.

The Leadership Tools Track emphasizes learning in the Business: Organizational Leadership Program. Students completing all three courses in one track will receive a certificate of completion which will enhance your educational resume.

MENTAL HEALTH TRACK

| | | |
|-----------|-------------------------------|------------------------|
| PS353OOCA | Psychology of Addiction | 3 credits |
| PS363OOCA | Group Dynamics | 3 credits |
| PS413CACA | Abnormal Psychology..... | 3 credits |
| | | Total Credits 9 |

CHILDREN AND FAMILIES TRACK

| | | |

| BA443OBCA | Group and Organizational Behavior | 3 credits |
| BA362OPCA | Management of Organizational Performance..... | 3 credits |
| | | Total Credits 8 |

CERTIFICATES

CHRISTIAN MINISTRIES CERTIFICATE

Corban offers a Christian Ministries Certificate (a non-degree certificate) designed for lay persons who work or desire to volunteer significant time in ministry opportunities in the local church or not-for-profit organizations. The certificate provides an integration of biblical, theological, and theoretical courses as well as other practical courses in leadership, communication and counseling to enhance knowledge and skills useful in ministry-related opportunities. Corban University allows a maximum of 10 transferrable credits for this certificate.

COURSE DESCRIPTIONS

BIBLICAL STUDIES

BI112CAC Old Testament Survey (2 credits)

Our purpose will be to provide a correlated and complete overview of the Old Testament Scriptures for a better understanding of its timeless truths, and a practical application to our daily living. We will demonstrate its historic accuracy, its basic unity, and its timeless relevancy. By the time the course is completed, each student will have a comprehensive view of the Old Testament Scriptures.

BI122CAC New Testament Survey (2 credits)

This survey is an overview of the basic content and themes of the New Testament. Through the usage of observation, evaluation and discussion, this course will aid the student in their understanding, application and spiritual transformation.

BI202OOC Bible Study Methods (2 credits)

This course is an introduction to the principles of the inductive method approach to studying the Bible, the development of techniques, utilization of tools, and the employment of various methods such as synthesis and analysis. The principles of interpreting Scripture are presented.

BI212CAC Redeeming Relationships (2 credits)

This course introduces the student to the biblical teaching about conflict and its causes. Combining biblical investigation, word studies, life stories, and a self-evaluation, the course guides students in developing biblical habits that will resolve relational conflicts while reducing their frequency in his or her life.

BI303ATCA Acts (2 credits)

This is a study of Luke's biblical account entitled The Acts of the Apostles. This analysis course emphasizes its theme, basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application and transformation.

BI303COCA Colossians (2 credits)

This is a study of the epistle of Paul to the Colossians. This analysis course emphasizes its theme (purpose), basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application and transformation.

BI303EPCA Ephesians (2 credits)

This is a study of Paul's epistles to the Ephesians. This analysis course emphasizes its theme, basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application and transformation.

BI303GACA Galatians (2 credits)

This is a survey of the book of Galatians. This analysis course emphasizes its theme, basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application, and transformation.

BI303GJCA Gospel of John (2 credits)

This is a study of the gospel of John. This analysis course emphasizes its theme, basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application, and transformation.

B1303HECA Hebrews (2 credits)

This is a survey on the book of Hebrews. This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of this epistle, this course will aid the student in their understanding, application and spiritual transformation.

B1303ISCA Isaiah (2 credits)

This is a survey on the book of Isaiah. This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of Isaiah, this course will aid the student in their understanding, application and spiritual transformation.

B1303JACA James (2 credits)

This is a survey on the book of James. This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of this book, this course will aid the student in their understanding, application and spiritual transformation.

B1303LCCA Life of Christ (2 credits)

Life of Christ includes a harmony of the Gospels and a careful study of the incarnate life of Christ as recorded in the Gospels. The course will also set the historic and geographic stage for the advent of Christ and familiarize the student with the political and religious atmosphere in which He lived.

B1303LUCA Luke (2 credits)

This is a survey on the Gospel of Luke. This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of this book, this course will aid the student in their understanding, application and spiritual transformation.

B1303MACA Matthew (2 credits)

This is a survey on the book of Matthew. This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of this gospel, this course will aid the student in their understanding, application and spiritual transformation.

B1303PHCA Philippians (2 credits)

This is a study of the epistle of Paul to the Philippians. This analysis course emphasizes its theme, basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application and transformation.

B1303PRCA Proverbs (2 credits)

This course is an analytical and expository study of Proverbs. Emphases will include poetic and cultural backgrounds, foundational and practical themes, as well as interpretation and application of key passages.

B1303PSCA Psalms (2 credits)

This is a survey on the book of Psalms. This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of this epistle, this course will aid the student in their understanding, application and spiritual transformation.

B1303ROCA Romans (3 credits)

This is a study of the epistle of Paul to the Romans. This analysis course emphasizes its theme, basic content and structure with specific analysis of several of its more prominent subjects with the goal of individual understanding, application and transformation.

BI303THCA I Thessalonians (2 credits)

This is an encouraging exploration of the first letter of Paul to the Thessalonians, with emphasis on discovering its historical setting, key truths, and practical themes. Students will sharpen their skills of observation, interpretation and meditation using an inductive approach.

TH21200CA Spiritual Fitness (2 credits)

This course introduces the student to the biblical teaching about maturity. Combining biblical investigation, word studies, life stories, and a self-evaluation, the course guides students in developing biblical habits that will promote biblical maturity in his or her life.

TH21300CA Introduction to Christian Theology I (3 credits)

This is an advanced study of Christian doctrine which gives students an overall system of theology. Christian Theology I is the study of Theological Prolegomena, Bibliology, Theology Proper, Christology, and Pneumatology.

TH22300CA Introduction to Christian Theology II (3 credits)

An advanced study of Christian doctrine which gives students an overall system of theology. Christian Theology II is the study of anthropology, hamartiology, soteriology, angelology, ecclesiology, and eschatology.

LIBERAL STUDIES COURSES

AT10200CA Introduction to Art (2 credits)

This course examines the role of art in today's society. The components of this course are exploration of art media, and the analytical and descriptive study of visual art, both present and past, with its social implications.

AT242DPCA Introduction to Digital Photography (2 credits)

Digital Photography provides both entry-level and intermediate camera users with a review of principles of photographic composition, features of contemporary digital cameras and an understanding of how they can be applied to achieve a wide range of specific photographic effects. Learning will be assessed by means of field project photographs posted in the online classroom.

BA313GPCA Grant Proposals (3 credits)

The ability to write successful grants is highly prized by nearly all types of organizations, making improvements and interventions possible even in difficult economic circumstances. Grant writing reviews the full process of determining and documenting needs, matching them with appropriate funding organizations, and initiating the process of query, report formulation and submission to maximize the potential for success.

CO112CACA Fundamentals of Speech (2 credits)

This course is an introduction to communication theory and practical aspects of communicating. Emphasizes support materials, powerful prose, vocal variety and the art of public speaking through personal feedback on four types of speeches (videotaped). Biblical ethos is emphasized.

EN102CACA Introduction to Literature (2 credits)

This course will help students appreciate, understand, and analyze literature's three main genres: fiction, poetry, and drama. Students will learn many literary terms that will help them fully appreciate and understand the literature they read. Some of these literary terms will include theme, character, plot, setting, point of view, and symbol.

EN122CACA Introduction to College Writing (2 credits)

This is a study and application of the rhetorical modes—narrative, thesis and support, classification, and comparison/contrast.

HI252CACA History of the Pacific Northwest (2 credits)

History of the Pacific Northwest: Century of Settlement is a study of the political, religious, economic, and cultural life of the Pacific Northwest from the time of the First Nations (Indians) to the close of the frontier in the 1890's and the rise of the Progressive Era.

HI342CACA Jewish History and Culture (2 credits)

Jewish History and Culture gives a fascinating look at the spiritual grandmother sitting behind and alongside of our own Christian faith. The student studies Jewish biblical interpretation, key historic events, Talmudic wisdom, the place of holy days, and the power of Jewish religious symbols by reading the highly acclaimed book *Jewish Literacy; The Most important Things to Know About the Jewish Religion, Its People, and Its History*. The author is the conservative Rabbi Joseph Telushkin, a teacher, widely respected inside and outside the Jewish world.

HI372OOCA Bonhoeffer Confronts Hitler's Reich (2 credits)

Bonhoeffer Confronts Hitler's Reich presents the student with an overview of the challenges facing Christ's true Church as it challenged the Nazi false church of the 1930s and 1940s. Lutheran theologian-pastor Dietrich Bonhoeffer led the way in exposing the Reich church as a non-Christian bigoted movement. The Nazi church smothered the Gospel of Love by denying that all believing Jews and Gentiles are "one in Christ." Galatians 3:28. Many brave German Christians stood strong and left us with a model of courage by risking their lives, and giving their lives, as they confronted an evil generation.

HI422CCCA How Christianity Transformed Civilization (2 credits)

Christianity Transforms Civilization is a study of the positive power of biblical truths and Christ's Gospel of Love as they dynamically interact with worldly cultures. All too often these days Christianity is bludgeoned as an aggressive meddlesome religion instead of a life-giving treasure that can help construct a healthy society. From the time of the Roman Caesars to the present day this course provides an overview of the transforming power of Christianity as it touches the different facets of culture.

HI443CACA American Civil War (2 credits)

The American Civil War still resonates within our national soul 150 years after the first shots were fired. This war worked to define who we are as Americans and what values we hold dear. The focus of the course will be on the tough decisions that confronted President Abraham Lincoln; the strategies, tactics, and personalities at work in key battles such as Vicksburg and Gettysburg; the struggle of men like Frederick Douglass in moving the focus of the war beyond simply saving the Union so as to include the liberation of four million people from slavery; and the legacy left by the president in becoming the exemplar of what it means to be a compassionate leader.

MA102CACA Contemporary Math (2 credits)

This is an introductory course designed to bring the variety and usefulness of mathematics to the non-specialist. The goal is to help each student apply mathematics in problem solving and decision making for life, as well as to see God's power and creativity through mathematics.

PS202CACA General Psychology (2 credits)

This is an introduction to the important topics in the field, such as behavior, motivation, attitudes, human development, intelligence and its measurement, learning, remembering, and personality

PS493DDCA Psychology of Death and Dying (3 credits)

This course will introduce lifespan development and the final stages of the process of Death and Dying. Students will compare and contrast historical and modern attitudes toward death and dying found in literature, rituals, religion, philosophy, film, medico-legal issues, and in the process of clarifying the attitudes and values of diverse peoples.

SCI22CACA Biology 101 (2 credits)

This course will encompass the principles of biology that include the structure and function of the cell to the complexities of current Ecological issues. Topics will include chemistry fundamentals, cell biology, classic and molecular genetics, origin and principles of creation and evolution, plant form and function, animal form and function and ecology. A laboratory component is involved. This course is worth 2 credits.

SC25200CA Human Genetics (2 credits)

This course is an examination of the basic principles of human genetics including the following topics: cell cycle, mitosis, meiosis, Mendel's Laws, Non-mendelian genetics, sex determination and sex-linkage, molecular genetics, and various genetic technologies. A laboratory component is involved. This course is worth two semester credits.

SO102CACA Introduction to Sociology (2 credits)

Sociological concepts and methods provide a useful and enlightening lens through which to view current events and the social issues encountered in everyday life. Topics include the socialization, social interaction and social structure, the stratification of society by categories such as age, race and gender, as well as the organization of the social institutions of family, government, economic systems, medicine, religion and education.

MENTAL HEALTH TRACK

PS35300CA Psychology of Addiction (3 credits)

This course will examine the causes, process and treatment of addiction and the impact that addiction has on the individual, family, and social systems. Attention is given to the background and history of drug use and behavior with an emphasis on identification of the key components of addiction, its process, and treatment. A variety of treatment philosophies will be examined as well as types of resources available to families and the individual.

PS36300CA Group Dynamics (3 credits)

This course will examine the group process from initiation to closure. Students will look at various types and sizes of groups and the different factors that affect cohesion, direction, and effectiveness of this ever more popular method of therapy. Over these five weeks, students will have the opportunity to experience the fundamentals of group work and look at guidelines for beginning their own work as a group leader. There will be opportunities to discuss and experience the stages of group development. And finally, the students will look at applying what they have learned of the group process as it applies to specific populations.

PS413CACA Abnormal Psychology (3 credits)

This course is designed to introduce the student to the theoretical and practical aspects of abnormal behavior. The student will become familiar with the vocabulary, major classifications, major theoretical frameworks, differential diagnosis, and practical aspects of mental illness. This course is an overview course designed to prepare the student for advanced study in this area.

CHILDREN AND FAMILIES TRACK

CJ41300CA Juvenile Delinquency (3 credits)

This course provides a study of juveniles and how they affect and are affected by the current juvenile justice system. The causes and treatment of delinquency will be reviewed, along with the procedures utilized at the county and state level, as well as the issues of prevention and intervention. Employment opportunities in the field of juvenile corrections will also be discussed and explored.

SO333CACA Child Abuse and Neglect (3 credits)

This course involves an examination of the nature and consequences of violence that occurs within the family setting, specifically to children birth through age 17. Issues to be studied include child physical abuse, sexual abuse, emotional abuse and neglect. Prevention and treatment for offenders and victims will also be covered. These issues of abuse and neglect will be studied using theory and research, as well as past and present case studies and current events.

SO333FVCA Family Violence and Dysfunction (3 credits)

This course involves an examination of the nature and consequences of violence that occur within the family setting. Issues to be studied include but are not limited to dating violence, stalking, sexual assault, spousal abuse and elder abuse. This social phenomenon will be studied using theory and research, as well as past and present case studies.

LEADERSHIP TOOLS TRACK

BA312OOCA Introduction to Entrepreneurship (2 credits)

Beginning with business trends, market analysis, risk assessment, and development of a business plan, *entrepreneurship* explores the practical steps involved in launching a new business enterprise or retasking an existing business. It also highlights resources and incentives available through state and federal government agencies, as well as basic legal implications for principles.

BA362OPCA Management of Organizational Performance (3 credits)

This course explores how leaders build strategies for achievement that provide for both individual and corporate effectiveness, and make sure they are aligned to complement each other. Students will have the opportunity to design some of the integrated activities that promote a culture of performance including objectifying and prioritizing results, measuring and assessing progress, exchanging feedback and reinforcing behaviors. These strategic skill sets are highly transferable to grant proposal and independent study project development.

BA443OBBCA Group & Organizational Behavior (3 credits)

A study of group behavior and how group functioning affects organizational effectiveness. Emphasis is placed on decision making and resolving conflict in groups. Students develop strategies for efficient and productive group management and determine which tasks are best handled by groups or individuals.

CHRISTIAN MINISTRIES CERTIFICATE

BA321CACA Servant Leadership (3 credits)

This course explores leadership in organizations from the perspective of the Servant Leadership Model, based on the life and ministry of Jesus Christ. Contemporary Christian leaders require tools and competencies to help them impact the moral intelligence of their organizations, creating strong and sustainable cultures of trust.

BI112CACA Old Testament Survey (2 credits)

This survey is an overview of the Old Testament books with an emphasis upon orienting the student to the general content, themes and style of each book and how they relate to the major people, places, and events of the Old Testament. Integration into our contemporary scene and personal application are stressed.

BI112CACA New Testament Survey (2 credits)

This survey is an overview of the basic content and themes of the New Testament. Through the usage of observation, evaluation and discussion, this course will aid the student in their understanding, application and spiritual transformation.

BI20200CA Bible Study Methods (2 credits)

This course is an introduction to the principles of the inductive method approach to studying the Bible, the development of techniques, utilization of tools, and the employment of various methods such as synthesis and analysis. The principles of interpreting Scripture are presented.

CO413CACA Effective Interpersonal Relations and Communication (3 credits)

This course investigates communication and relationships in creating a productive interactive environment. Effectiveness in personal and social relationships is provided through readings and exercises concerning non-verbal communication, constructive feedback, dealing with anger, and resolving conflict.

IS202CACA Global Perspectives (2 credits)

An introductory survey of God's plans and purposes in the world today through a study of the biblical foundation for mission, the historical progress, cultural challenges, world needs and contemporary strategies to fulfill Christ's Great Commission, and a final personal exploration into God's unique design and call on your life to advance His Great Commission.

PS383PCCA Pastoral Counseling (3 credits)

A study and appraisal of theory and techniques of counseling utilizing a biblical worldview. Topics include counseling theories and familiarization with foundational counseling skills based on biblical principles regarding appropriate intervention in the lives of others. The course introduces students to theory and skills essential to effective interpersonal relations while modeling concern for the body of believers.

TH21300CA Introduction to Christian Theology I (3 credits)

This is an advanced study of Christian doctrine which gives students an overall system of theology. Christian Theology I is the study of Theological Prolegomena, Bibliology, Theology Proper, Christology and Pneumatology.

TH22300CA Introduction to Christian Theology II (3 credits)

An advanced study of Christian doctrine which gives students an overall system of theology. Christian Theology II is the study of Anthropology, Hamartiology, Soteriology, Angelology, Ecclesiology, and Eschatology.

TH433CACA Biblical & World Views (3 credits)

Judeo-Christian beliefs and values have been challenged and taken under aggressive attack by fundamentally different systems of thought. To address this phenomenon, in *Biblical and World Views*, students will review the shaping influence of philosophies such as Existentialism, Naturalism, Humanism and New Age, as well as core assumptions embodied in Postmodernism. At the same time, the course challenges students to reflectively develop and articulate a clear worldview as a Christian, focusing particularly on individual beliefs and values and their impact on decision making and thoughtful responses to other worldviews.

BI303_CA Bible Book Study (2 credits)

This is a survey on a book from the Bible. There are many book studies from which to choose (see list under Biblical Studies). This course emphasizes the book's basic content and themes. Through the usage of observation, evaluation and discussion of this book, this course will aid the student in their understanding, application and spiritual transformation.
